Nord Pay is

Transparency

All operations are stored on a single platform. Track transactions, transfers, and fee deductions in one place.

Convenience

Accept payments from millions of cryptocurrency users around the world. Fast, simple, and without restrictions.

Savings - up to 70%

Save on fees compared to traditional payment methods, and up to 50% compared to other crypto payment services.

We create a product people want to use every day.

Nord Pay solves the most complex tasks in just seconds, helping our clients focus on their business – not on operational processes.

Nikolai Petruchenko

CEO Nord Pay

Accept cryptocurrency payments with Nord Pay!

We help businesses:

Reduce operational load by saving on fees.

Accept payments from around the world in just seconds.

Automatically convert incoming payments to protect against cryptocurrency volatility.

Integrate a convenient API for fast and secure payments in your app or on your website.

Ensure additional fund security by deploying the payment solution on your own server.

Nord Pay — the perfect solution for:

eCommerce

Instant payments for subscriptions and services.

Digital services

Stable recurring payments with monthly billing.

Dating & Adult

Convenient microtransactions for transportation services.

High-risk projects

Payments for courses and educational content subscriptions.

CRM Туризм/Education

Payments for professional tools and services.

Real estate

Convenient payments with no fees or delays.

Automotive business

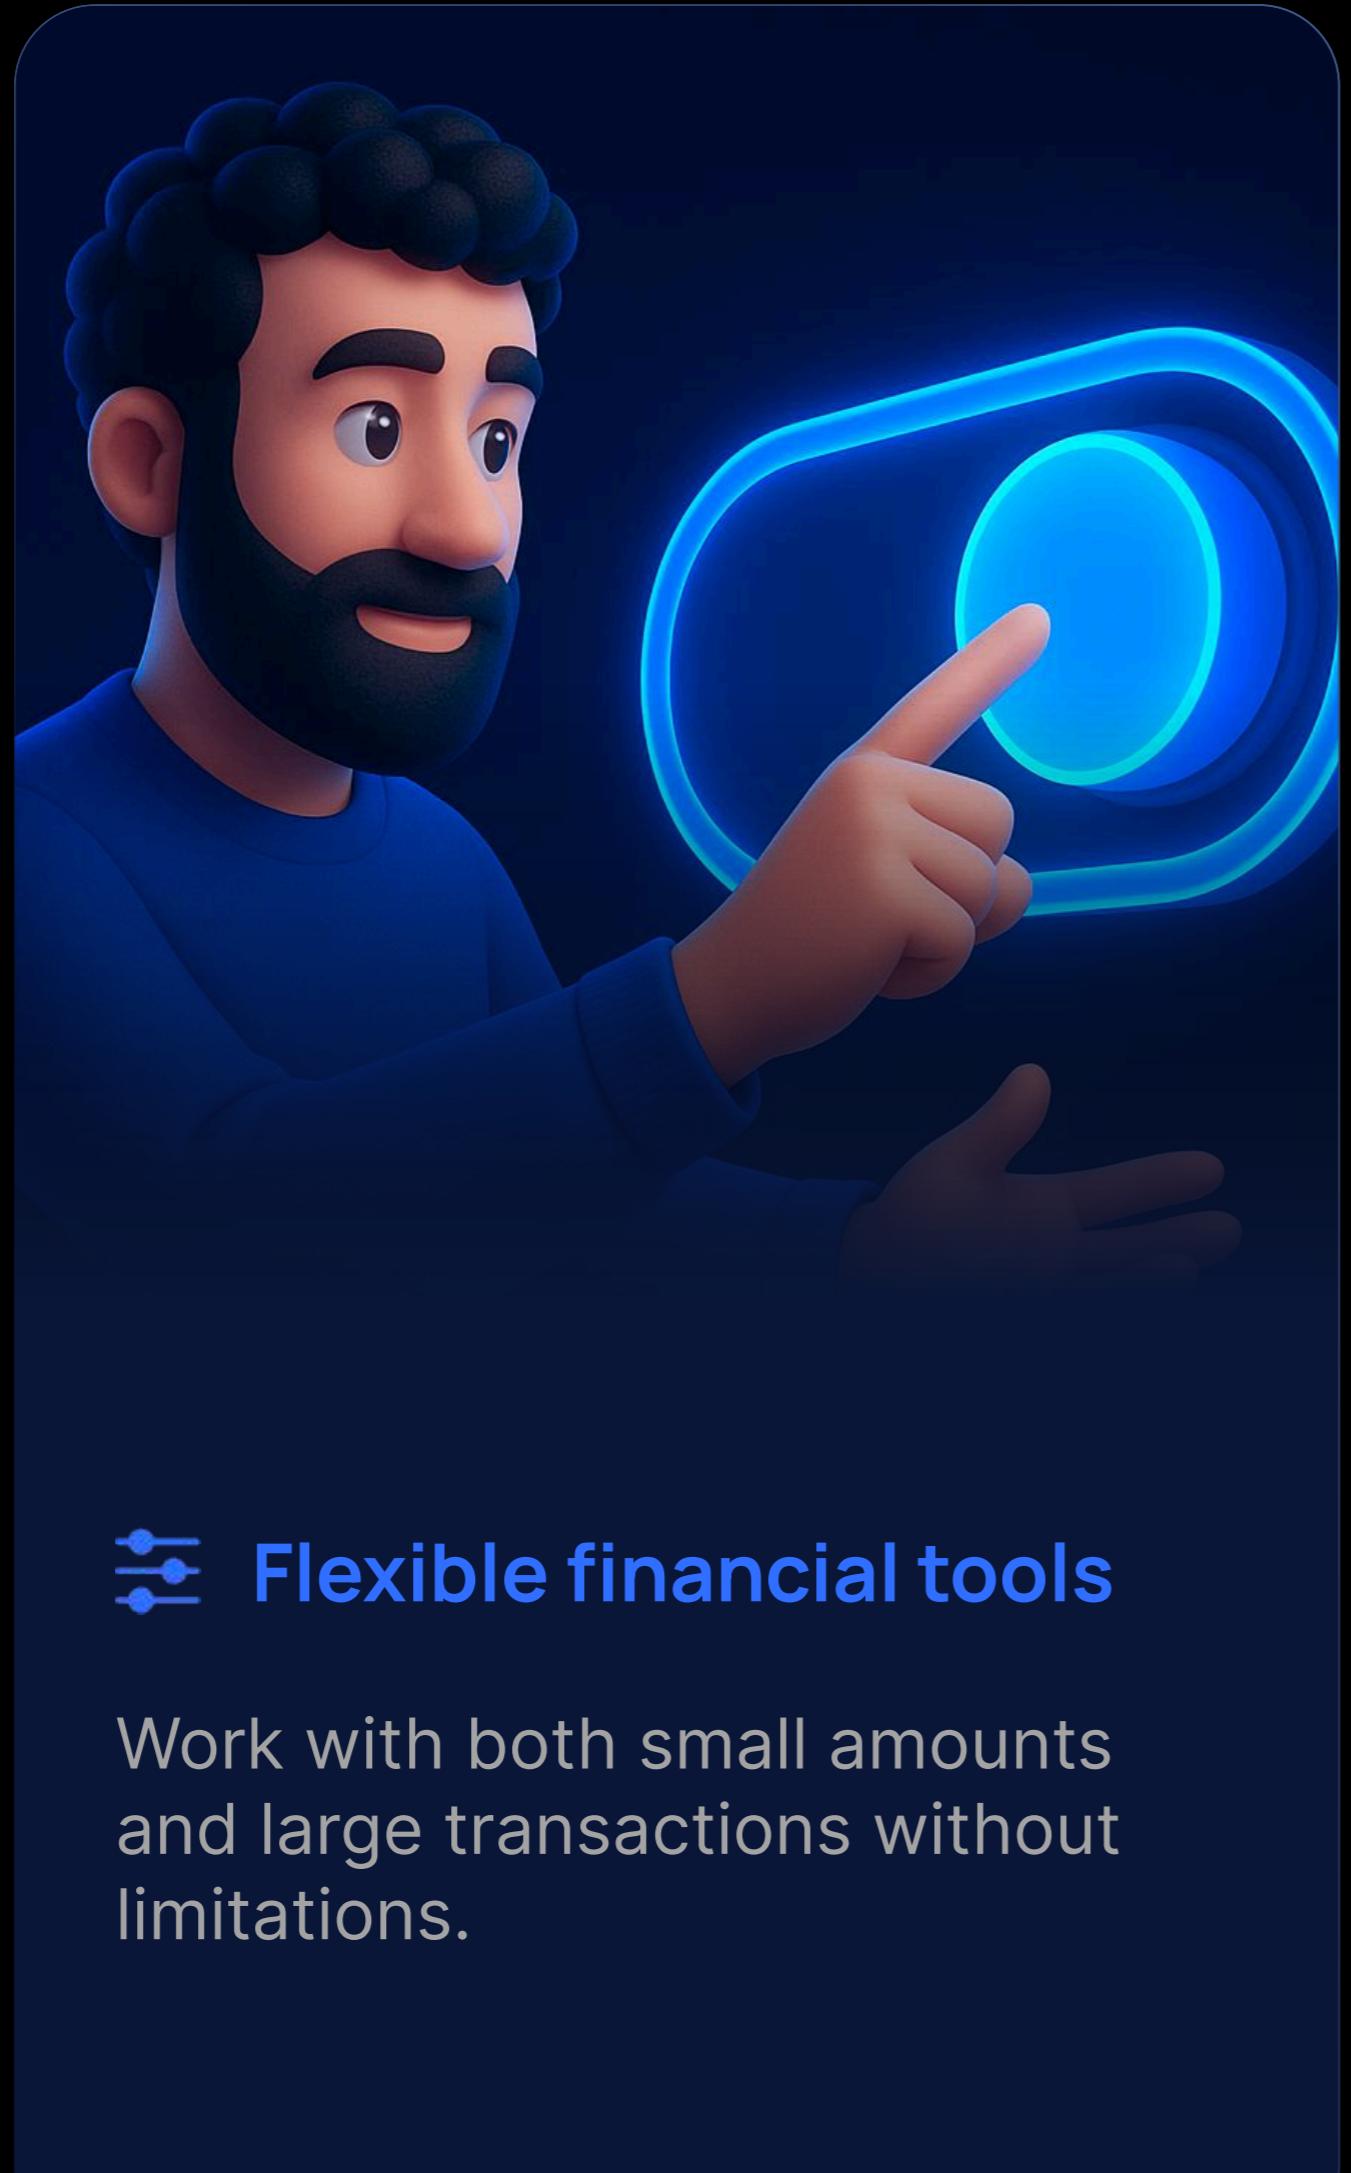

Smooth payments with no fees or delays.

And much more...

Hassle-free payments with zero fees or holdups.

Why do clients choose us?

Wallet integration API

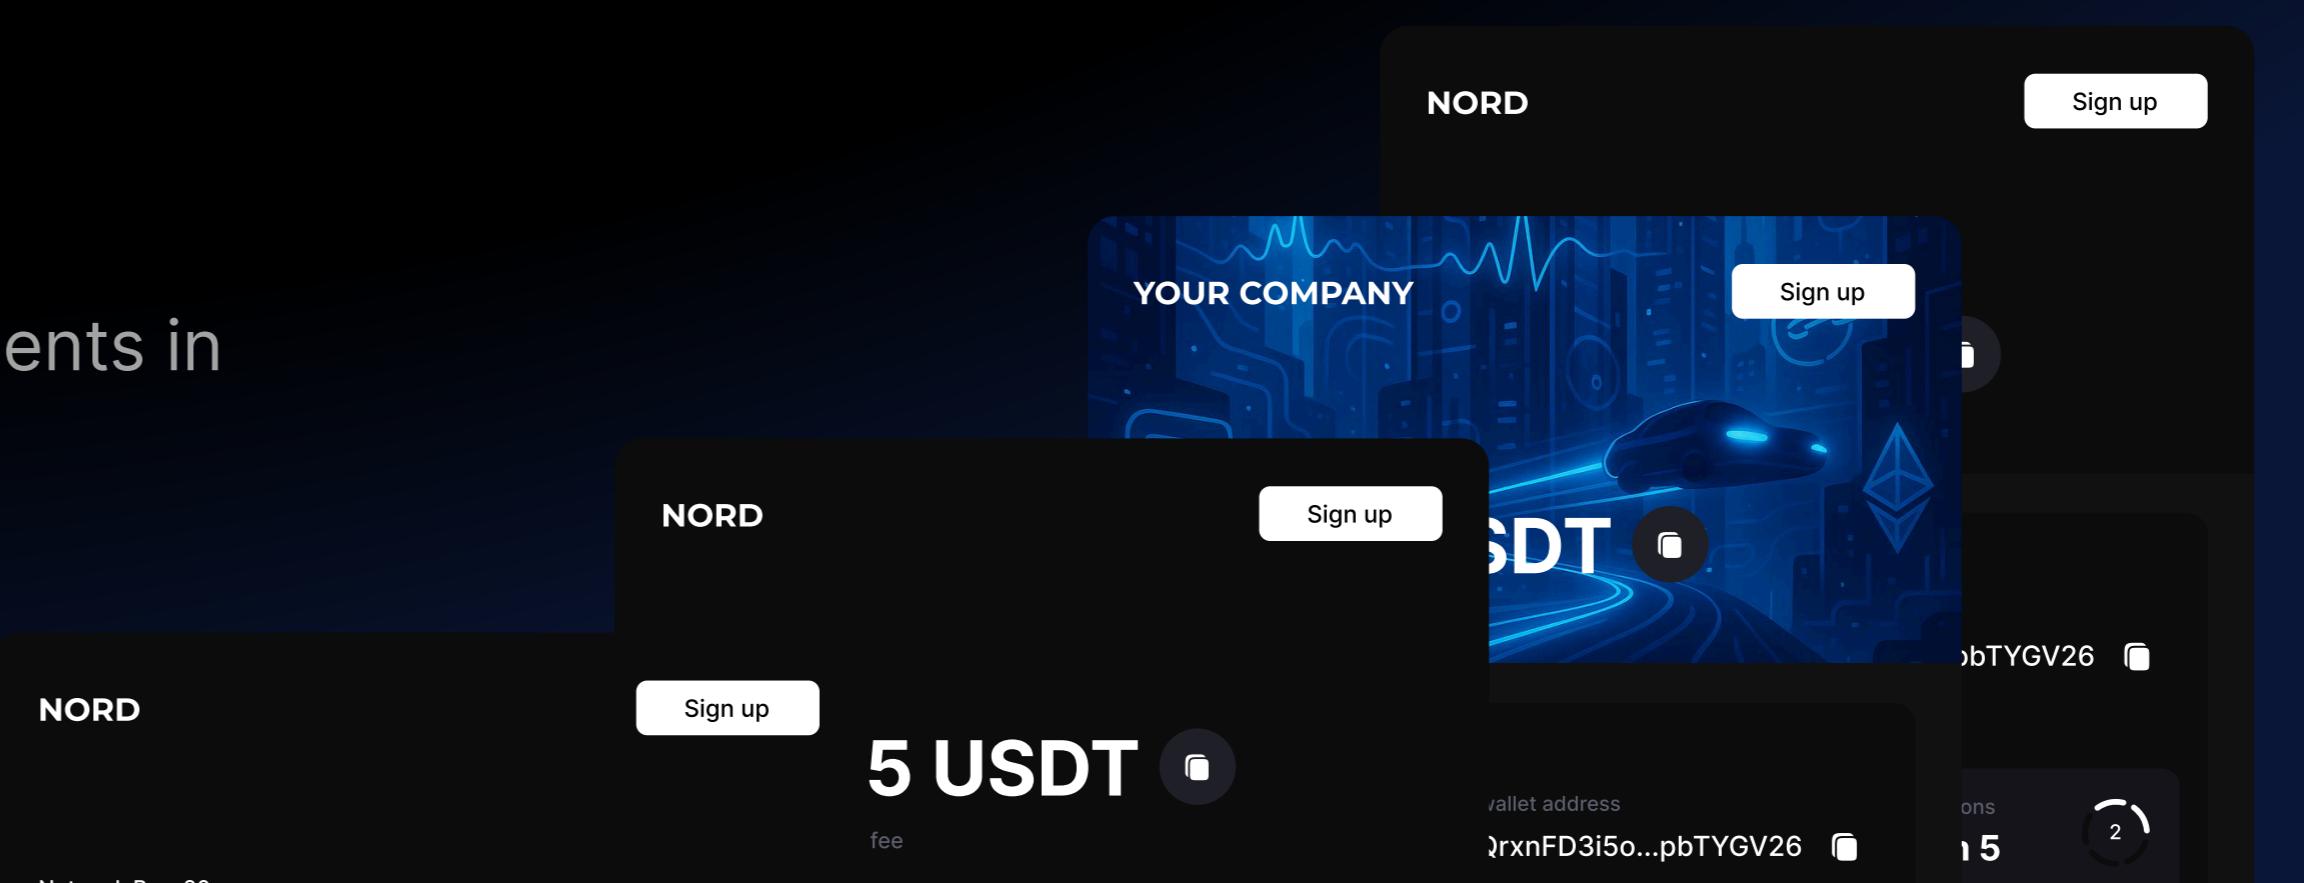

Allow your clients to easily pay for goods and services on your website or in your app.

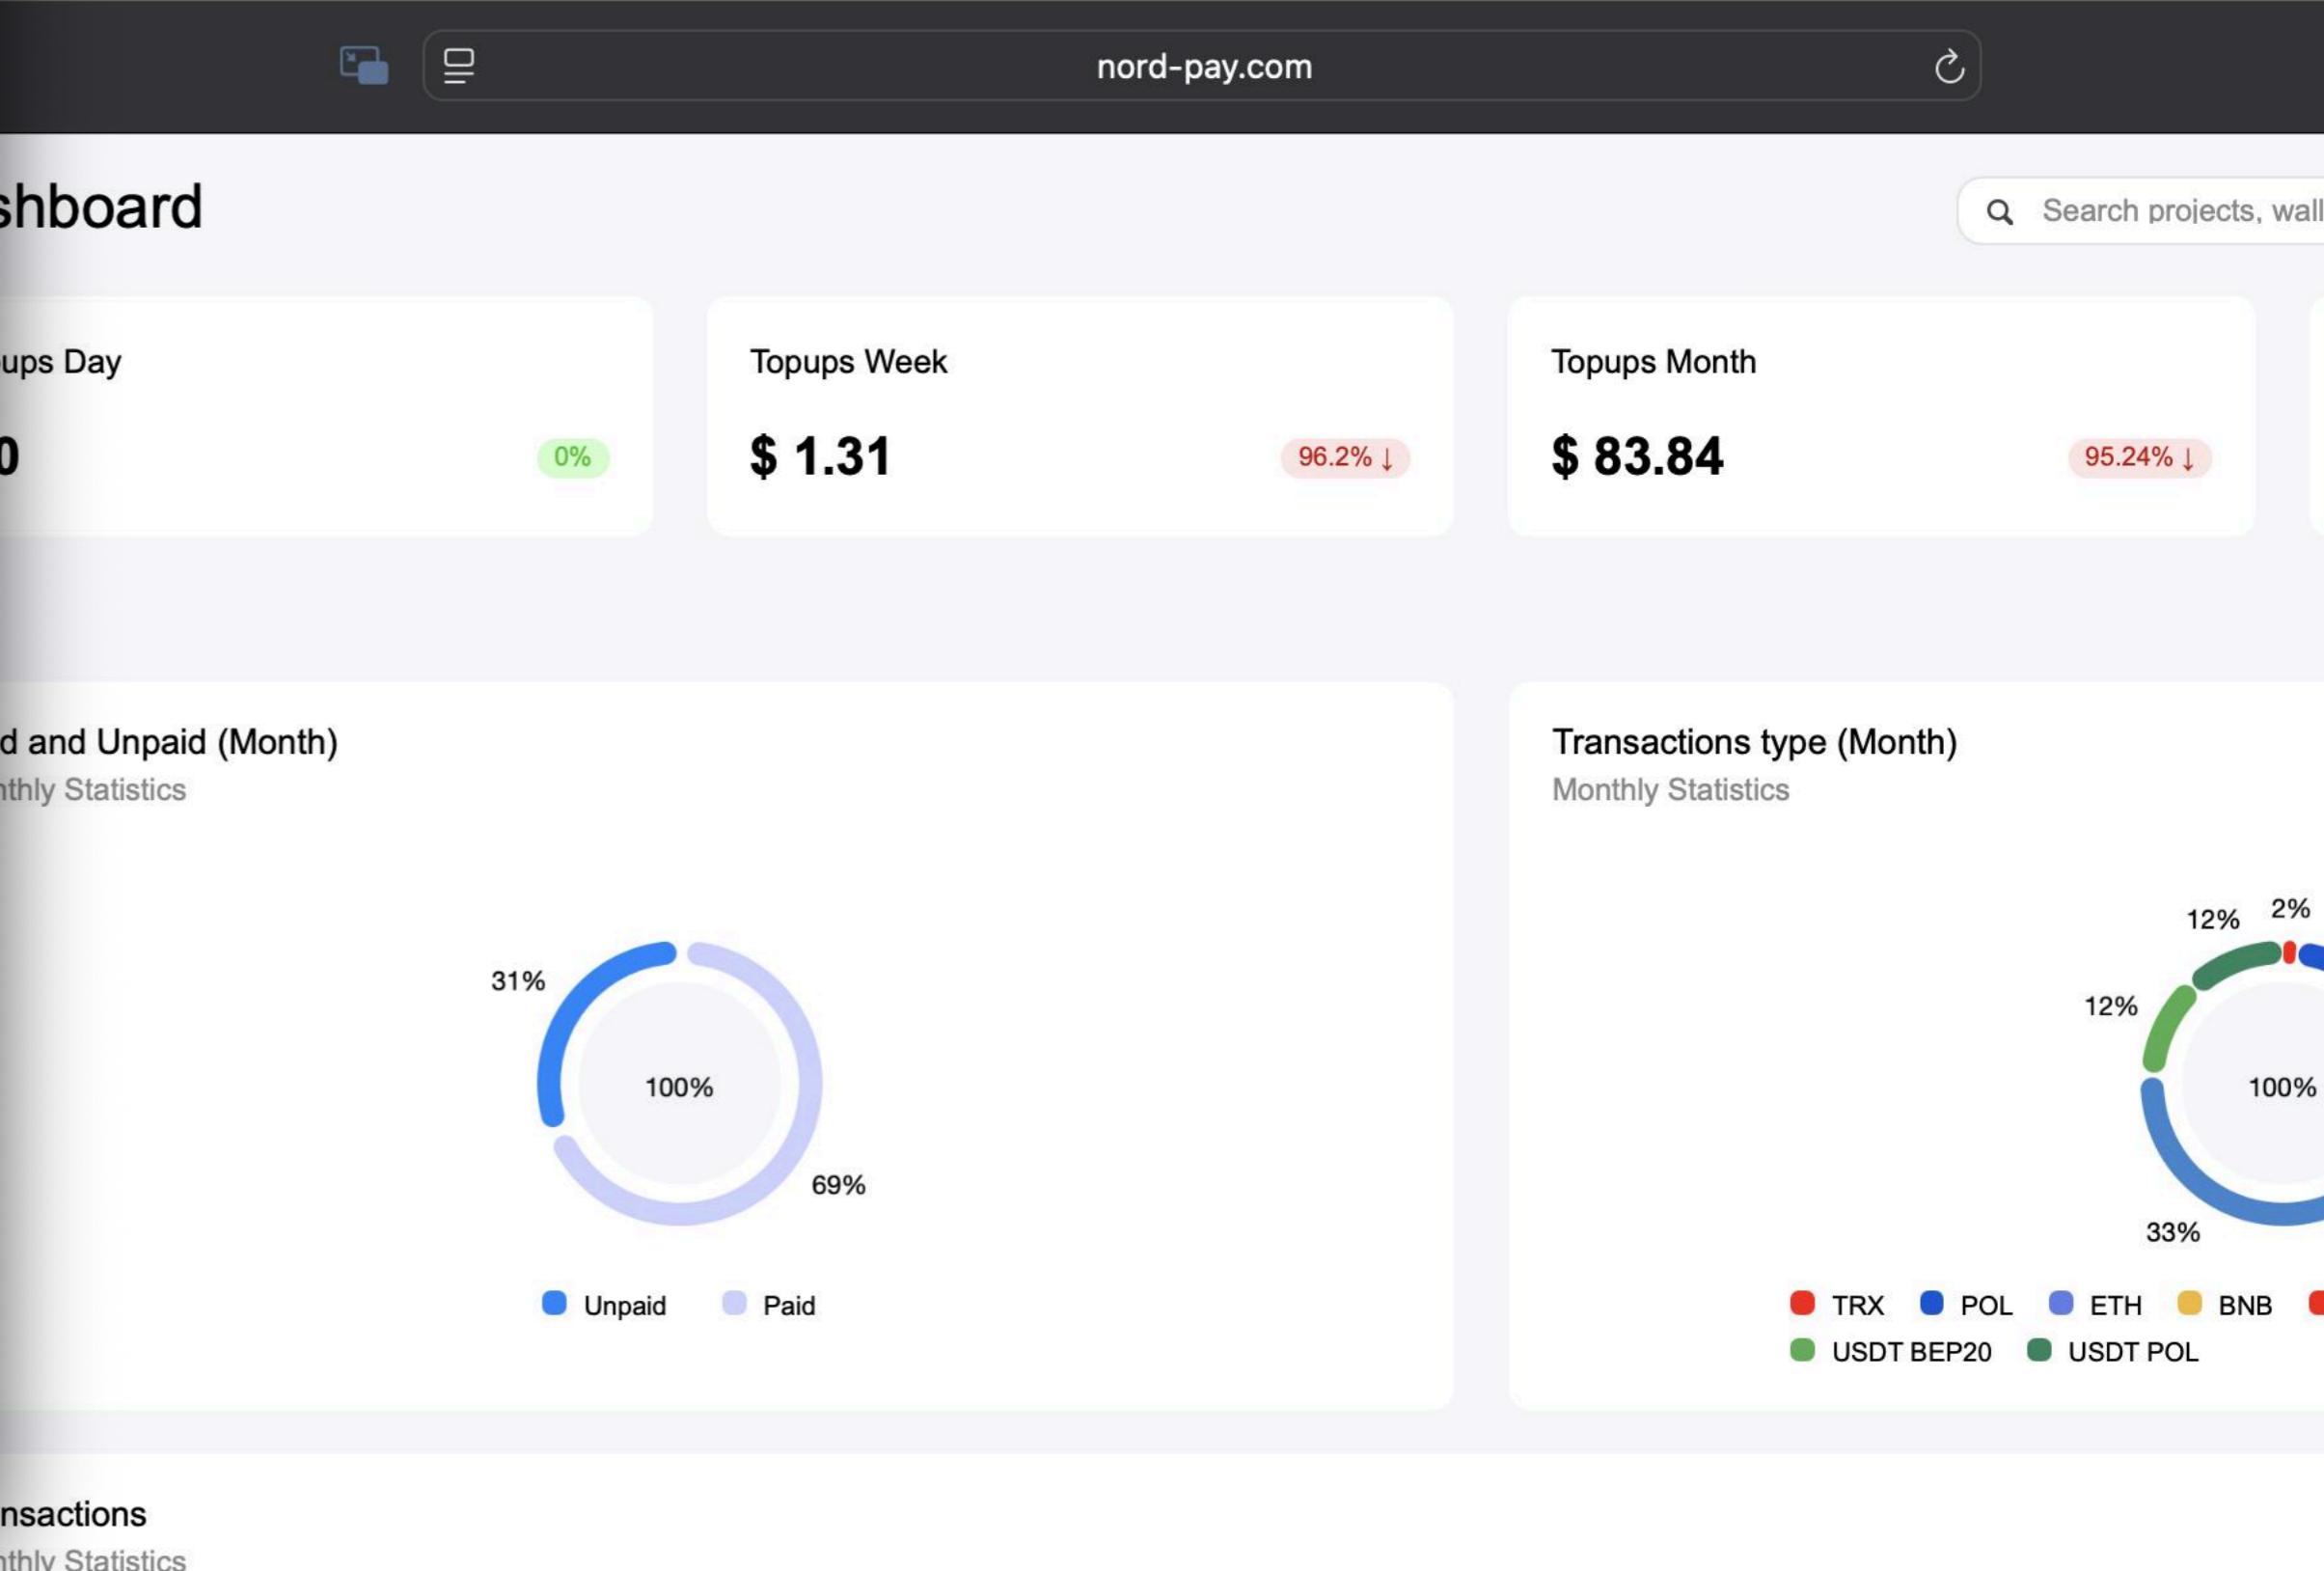

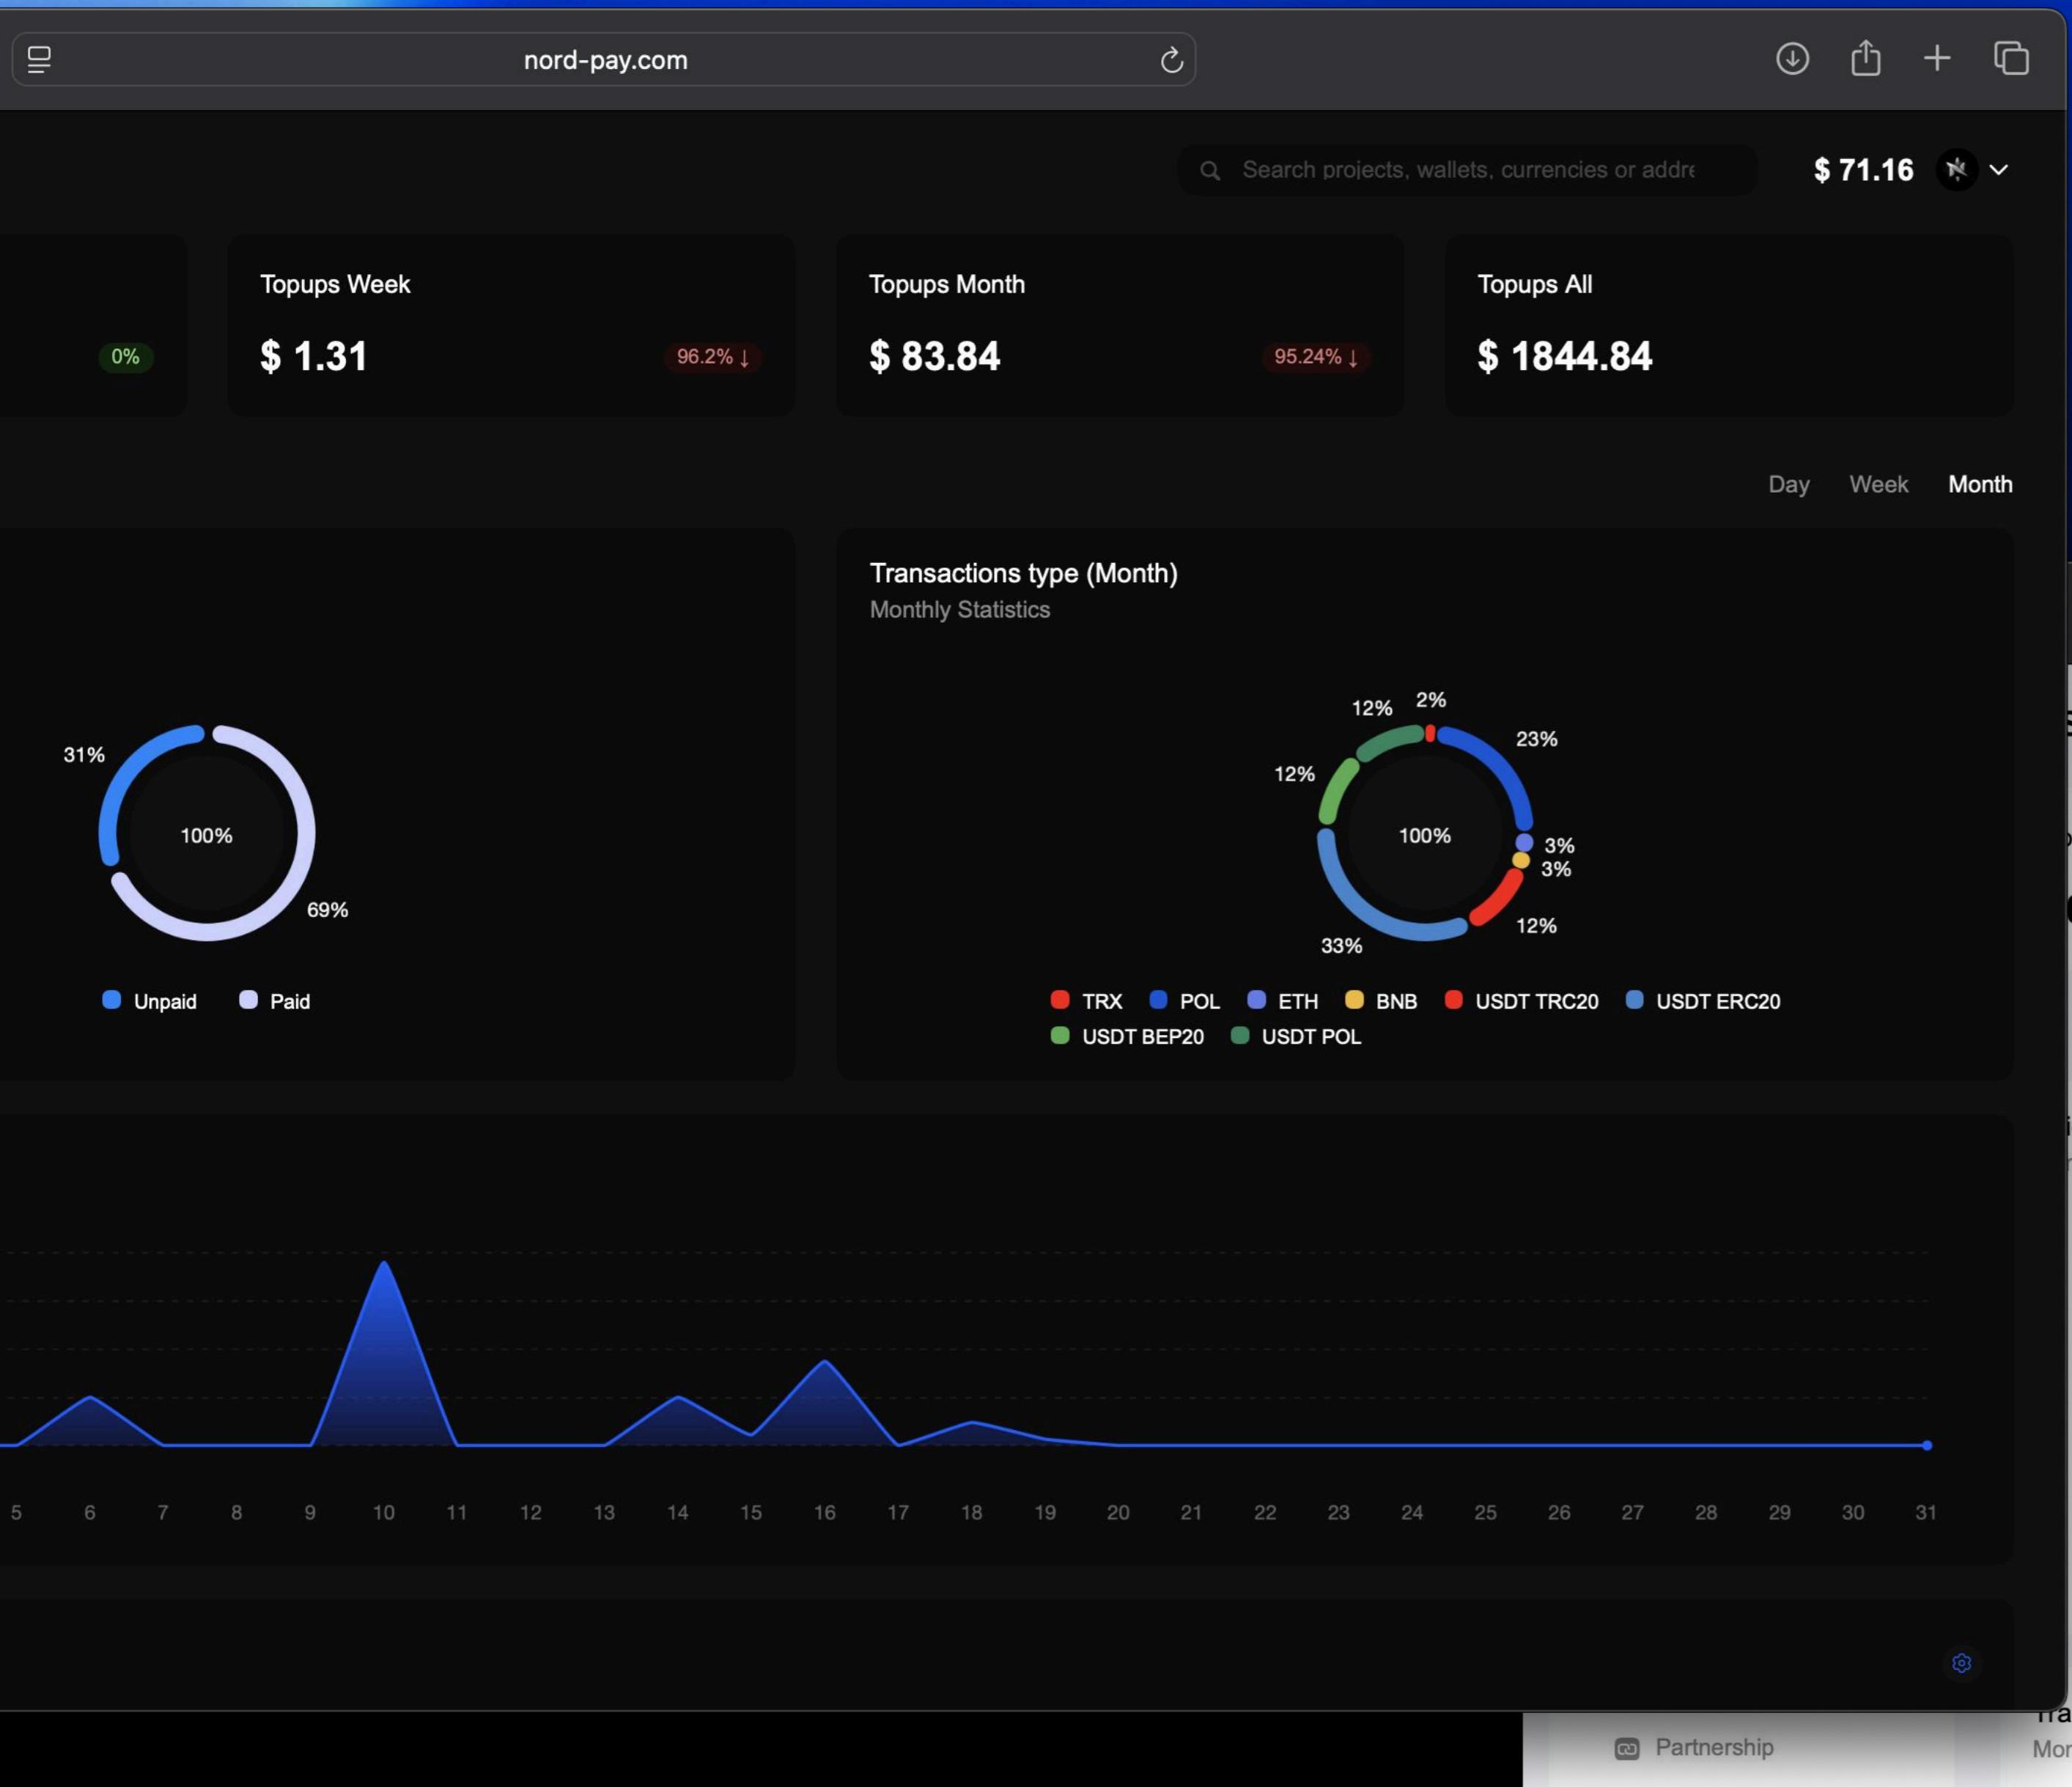

API

Invoicing system

Create, edit, and send invoices to clients in just a few clicks.

Intuitive Dashboard

Easy balance overview

The screenshot shows a crypto wallet interface with the following data:

- Balance:** \$ 71.16
- Recent Transactions:**
 - 10 USDT BEP20: ~\$10.00
 - 10 USDT POL: ~\$10.00
 - 26.05 USDT ERC20: ~\$26.05
 - 0.0199 BNB: ~\$13.33
 - 33.835225 POL: ~\$8.24
 - 0.0009 ETH: ~\$2.32
 - 4.5 TRX: ~\$1.21
- Created Invoices:** \$ 10104816.16
- Paid Invoices:** \$ 64.05
- Partially Paid:** \$ 0.00 (0%)
- Not Paid:** \$ 10104752.11 (100%)

Buttons at the bottom include "Multiple Withdrawal" and "Withdrawal".

History of Operations is visible on the left, and "Экспорт" (Export) is on the right.

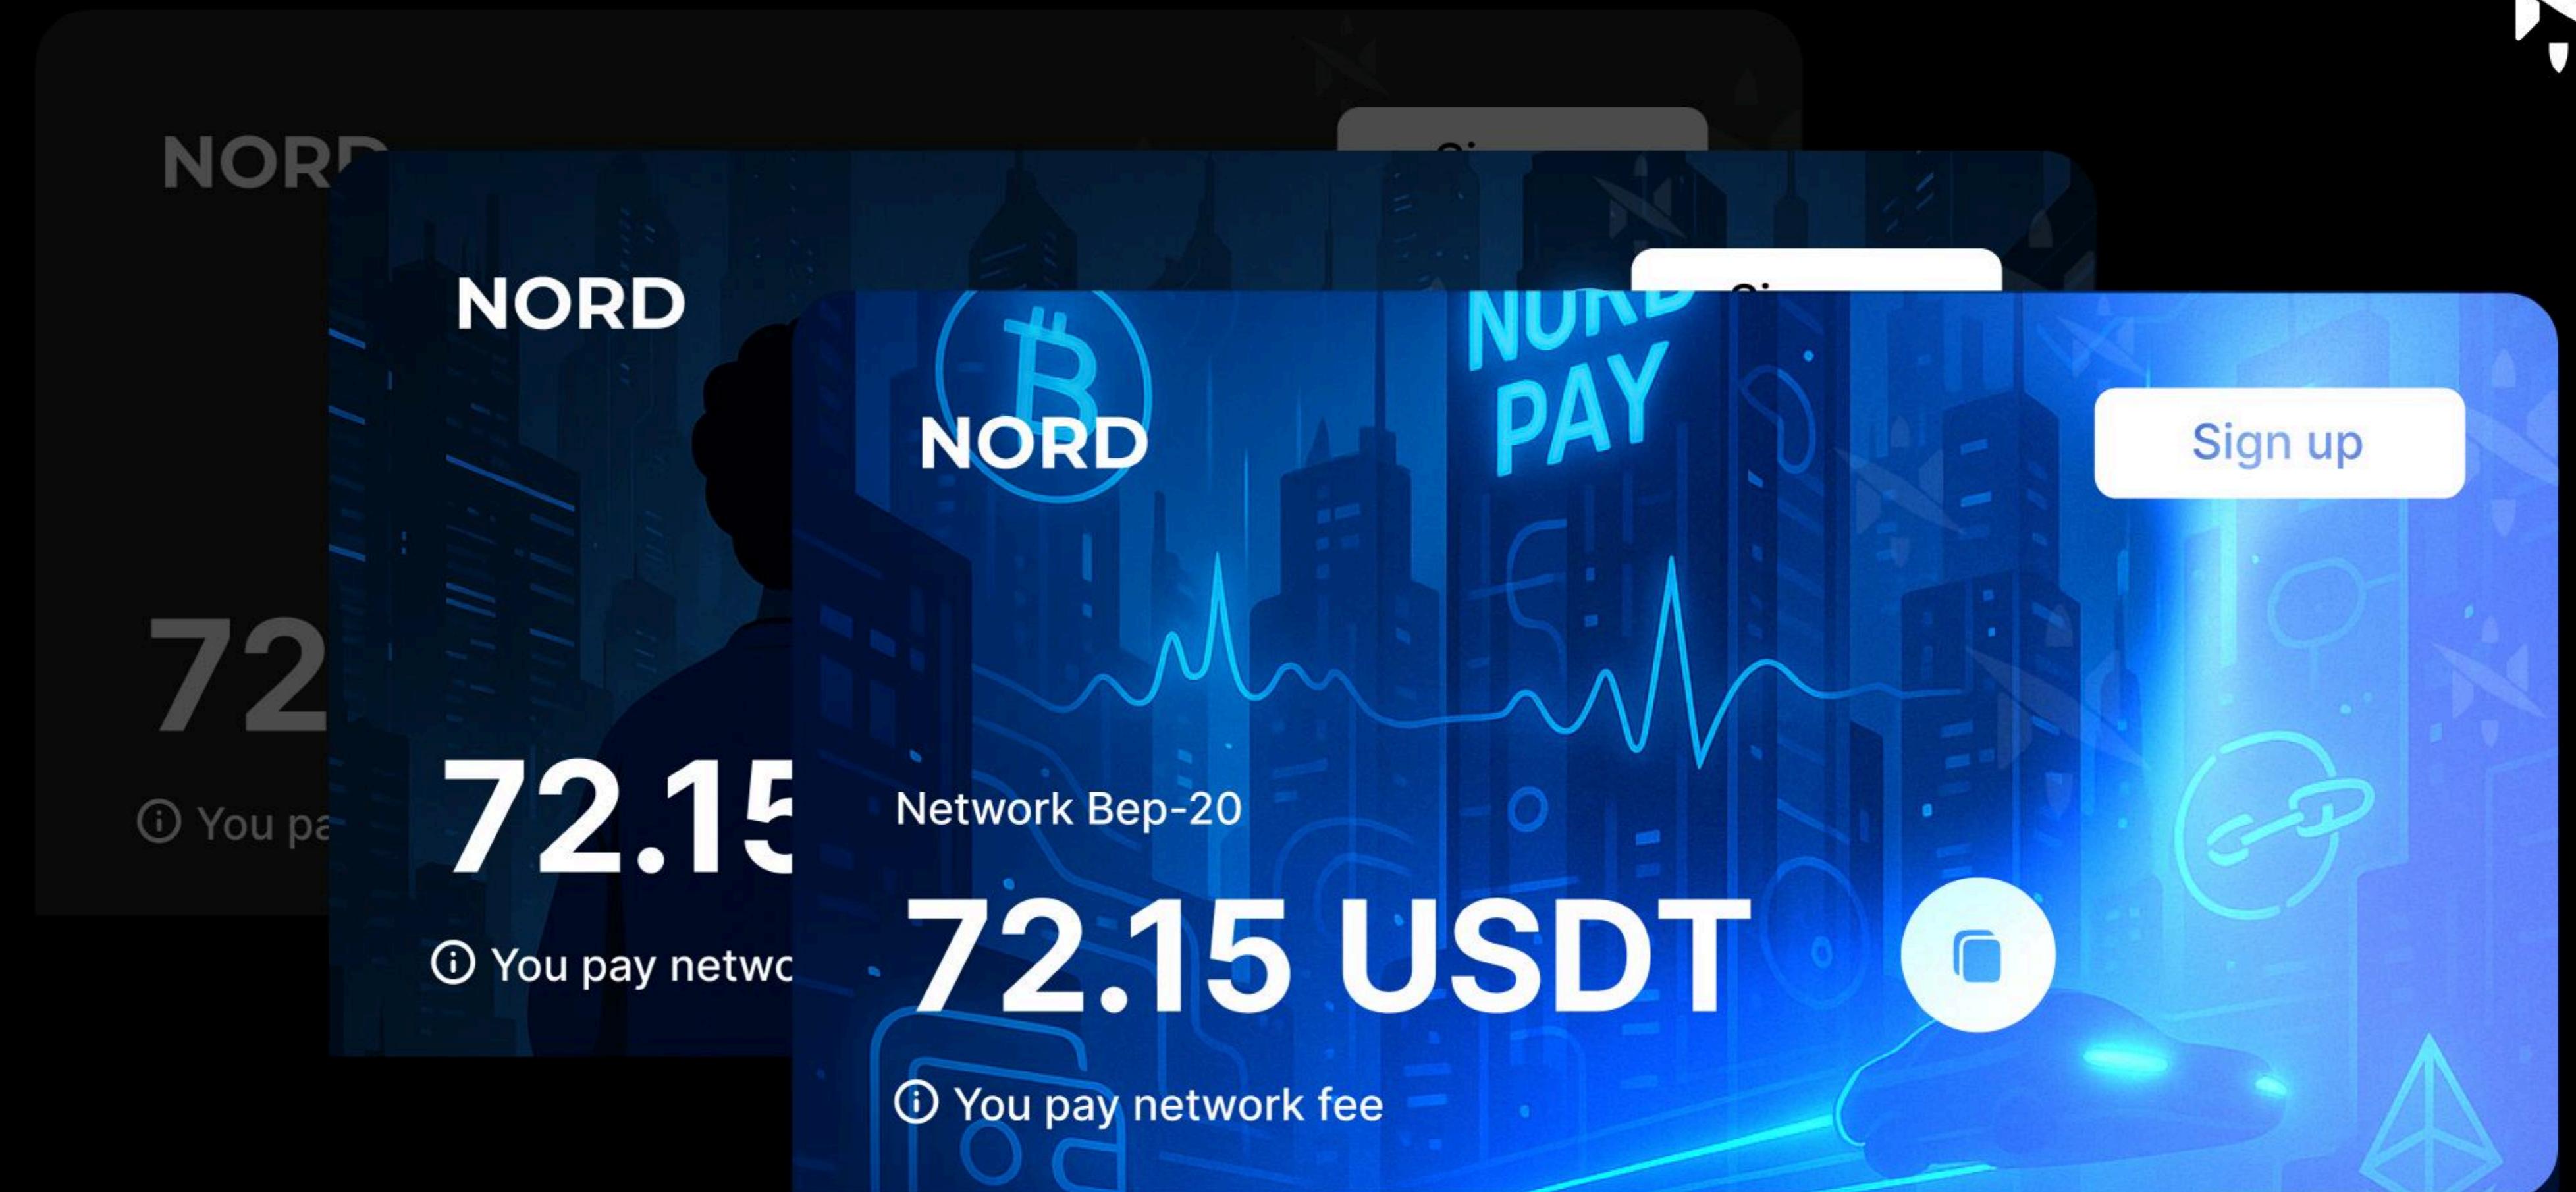

The screenshot shows the NordPay.com Balance page. The top navigation bar includes standard browser controls (refresh, back, forward) and the URL 'nord-pay.com'. On the left, a sidebar titled 'NordPay' contains 'PROFILE' and 'Nord' sections, and a 'MAIN MENU' with 'Dashboard', 'Balance' (which is selected and highlighted with a blue vertical bar), and 'Wallets' options. The main content area is titled 'Balance' and displays the following information:

- Balance:** \$ 71.16
- Currencies and Balances:**
 - 10 USDT BEP20: ~\$10.00
 - 10 USDT POL: ~\$10.00
 - 26.05 USDT ERC20: ~\$26.05
 - 0.0199 BNB: ~\$13.33
 - 33.835225 POL: ~\$8.24
 - 0.0009 ETH: ~\$2.32
 - 4.5 TRX: ~\$1.21
- Buttons:** 'Multiple Withdrawal' (light blue) and 'Withdrawal' (blue)

On the right, there are two large boxes showing invoice statistics:

- Created Invoices:** \$ 10104816.16
- Paid Invoices:** \$ 64.05 (0%)

A search bar at the top right says 'Search projects, wallets, currencies'.

Customization

You can change the cover and naming to match your brand.

Expiration time

00:59:31

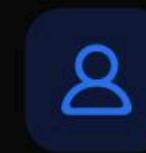

Confirmations

0 from 5

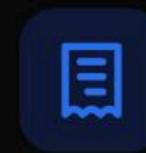

How the payment process looks for the client

1. The client creates an invoice (for example, buying a laptop or topping up an account balance)

2. After clicking "Pay", the client selects a cryptocurrency and network

3. Nord Pay generates an invoice tailored to your app or website

5. After the transaction is confirmed by the network, the user is redirected to the merchant's page with a payment confirmation

4. The client sends the amount to the specified address or via QR code

Four Steps to Connect the Payment System

Register on the Nord Pay platform and create a project

API

Get API access:
